

Список публикаций д.б.н., профессора Тимофеева М.А.

1. Shatilina Z.M., Gubanov M.V., Zadereev E.S., Pavlichenko V.V., Axenov-Gribanov D.V., Sapozhnikova E.A., Protopopova M.V., Bedulina D.S., Timofeyev, M.A. Comparative study of thermoresistances' cellular mechanisms in representatives of the *Gammarus lacustris* Sars populations inhabiting Saline Lake Shira (Republic of Khakassia) and a fresh water body in the Cis-Baikal region // *Doklady Biological Sciences*. – 2010. – V.434, N1. – P.359-362.
2. Bedulina D.S., Zimmer M., Timofeyev M.A. Sub-littoral and supra-littoral amphipods respond differently to acute thermal stress // *Comparative Biochemistry and Physiology - In Biochemistry and Molecular Biology*. – 2010. – V.155 (4). – P. 413-418.
3. Steinberg C.E.W., Ouerghemmi N., Herrmann S., Bouchnak R., Timofeyev M.A., Menzel R. Stress by poor food quality and exposure to humic substances: *Daphnia magna* responds with oxidative stress, lifespan extension, but reduced offspring numbers // *Hydrobiologia*. – 2010. – V.652 (1). – P. 223-236.
4. Bedulina D.S., Timofeyev M.A., Zimmer M., Zwirnmann, E., Menzel, R., Steinberg C.E.W. Different natural organic matter isolates cause similar stress response patterns in the freshwater amphipod, *Gammarus pulex* // *Environmental Science and Pollution Research*. – 2010. – V.17 (2). – P.261-269.
5. Axenov-Gribanov D.V., Gurkov A.N., Shakhтанова N.S., Bedulina D.S., Timofeyev M.A., Meglinski I. Optical diagnostic test of stress conditions of aquatic organisms // *Journal of Biophotonics*. – 2011. – V.4 (9), – P. 619-626.
6. Shatilina Z.M., Wolfgang Riss H., Protopopova M.V., Trippe M., Meyer E.I., Pavlichenko V.V., Bedulina D.S., Axenov-Gribanov D.V., Timofeyev M.A. The role of the heat shock proteins (HSP70 and sHSP) in the thermotolerance of freshwater amphipods from contrasting habitats // *Journal of Thermal Biology*. – 2011. – V.36 (2). – P. 142-149.
7. Hofmann S., Timofeyev M.A., Putschew A., Saul N., Menzel R., Steinberg C.E.W. Leaf litter leachates have the potential to increase lifespan, body size, and offspring numbers in a clone of *Moina macroscopa* // *Chemosphere*. – 2012. – V.86 (9). – P. 883-890.
8. Аксёнов-Грибанов Д. В., Лубяга Ю.А., Шахтанова Н.С., Гурков А.Н., Бедулина Д.С., Шатилина Ж.М., Кондратьева Е.М., Верещагина К.П., Тимофеев М.А. Определение температурного оптимума эндемичного байкальского вида амфипод *Eulimnogammarus verrucosus* (Gerstf., 1858) по изменениям показателей клеточного метаболизма // *Журнал стресс-физиологии и биохимии*. – 2012.– V. 8, N. 4. – P. 289-301.
9. Bedulina D.S., Evgen'Ev M.B., Timofeyev M.A., Protopopova M.V., Garbuz D.G., Pavlichenko V.V., Luckenbach T., Shatilina Z.M., Axenov-Gribanov D.V., Gurkov A.N., Sokolova I.M., Zatsepina O.G. Expression patterns and organization of the hsp70 genes correlate with thermotolerance in two congener endemic amphipod species (*Eulimnogammarus cyaneus* and *E. verrucosus*) from Lake Baikal // *Molecular Ecology*. – 2013. – V. 22, N5. – P.1416-1430.
10. Rivarola-Duarte L., Otto C., Juhling F., Schreiber S., Bedulina D., Jakob L., Gurkov A., Axenov-Gribanov D., Sahyoun A.H., Lucassen M., Hackermuller J., Hofmann S., Sartoris F., Portner H.O., Timofeyev M., Luckenbach T., Stadler P.F. A first glimpse at the genome of the Baikalian amphipod *Eulimnogammarus verrucosus* // *Journal of Experimental Zoology Part B: Molecular and Developmental Evolution*. – 2014. – V. 322, N.3. –P. 177-189.
